

We accept challenges.

WAGNER Group: strong brands – strong performance

Whether for the wood industries, in the areas of infrastructure, agriculture and construction machinery, transport, automotive, domestic appliances: The WAGNER Group, with its WAGNER, Walther Pilot, Reinhardt-Technik and C.A. Technologies brands, provides perfectly aligned products and solutions for optimizing your entire coating, bonding, sealing and encapsulation processes. We offer a complete range of technologies to fit the material you use – liquid and powder coatings, adhesives or other fluid media. Our solutions, including tailor-made interface management, thus become a valuable link within your production processes.

Your expectations our solutions!

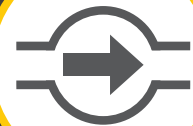

Liquid coating

Products by the WAGNER Group represent the highest levels of dependability and quality. Ideal for your specific needs.

High performance for outstanding results.

We offer tools, equipment and systems for all applications in the area of industrial liquid coating.

Our innovative products and solutions stand out in terms of their quality, efficiency and productivity.

Feeding

Whether adhesives or sealants – abrasive, high or low viscosity – the WAGNER Group offers the right pump for every material and every application. Consistent performance, low icing air motors, ease of maintenance, low energy consumption for serious reliability, longevity and low running costs.

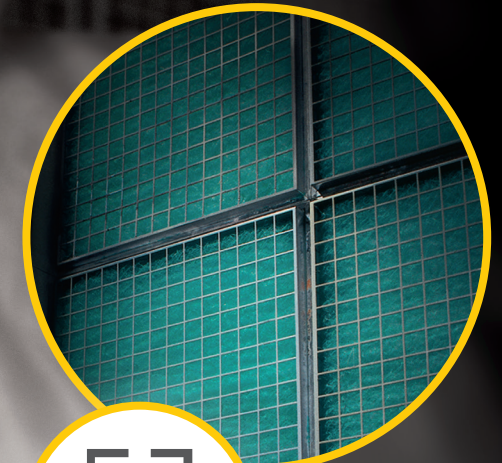

Mixing

With its mixing and dispensing systems, the WAGNER Group offers a product family which is equipped to cope with the most varied of demands of industrial application. Whether mechanical, electronic, low pressure or high pressure, automatic or hand coating – with the various WAGNER systems, 2-component to 4-component materials can be reliably processed.

Application

WAGNER Group application equipment is used worldwide and enables optimal coating results on all types of surfaces. The new product generation allows greater efficiency and perfection both with manual and automatic coating. WAGNER Group application systems are the result of consistent development for even greater performance.

Automation

Our customers' challenges drive our continuing innovation process and technological developments. This way, the WAGNER Group offers customer-specific solutions for different sealing and bonding applications in addition to its standard product lines – starting with simple product adaptations ranging to completely integrated robot cells.
